# glass

we **know** glass, we **love** glass

As a global leader in flat glass and hollow glass processing technology, we have been helping to shape one of the most beautiful and useful materials in the world for over 60 years. Its unique qualities, combined with the passion for technology and innovation, guide us in seeking for newer and more effective solutions to improve and expand its use.

A complete range of machines designed to guarantee high precision and to limit maintenance as much as possible.

# Flex-Edge

The double sided edging machine can be configured with 10, 12, 14,15 or 17 grinding wheels. The machine is particularly suited to process large sizes and thickness and double edger platform can be integrated with totally automatic lines for flexible productions, in small or large batches, with automatic dimension changes managed by the dedicated software.

<b>Type of processing</b>	Flat edge
<b>Special edge processing</b>	Special edge processing
<b>Maximum sheet dimensions</b>	Up to Jumbo size
<b>Automation level</b>	★★★★★

Evaluation based on comparison with other Bottero products of the same category.

### Technical features
