we **know** glass, we **love** glass

As a global leader in flat glass and hollow glass processing technology, we have been helping to shape one of the most beautiful and useful materials in the world for over 60 years. Its unique qualities, combined with the passion for technology and innovation, guide us in seeking for newer and more effective solutions to improve and expand its use.

A complete range of machines designed to guarantee high precision and to limit maintenance as much as possible.

Twin Edge

The Twin-Edge groups are part of the Bottero range of flat edge and arris double edgers. The 4 machines are available in versions capable of producing full flat edge and arris finish.
