glass

we **know** glass, we **love** glass

As a global leader in flat glass and hollow glass processing technology, we have been helping to shape one of the most beautiful and useful materials in the world for over 60 years. Its unique qualities, combined with the passion for technology and innovation, guide us in seeking for newer and more effective solutions to improve and expand its use.

Straight line edgers and bevellers are manufactured to ensure maximum production and maximum reliability.

Victralux

Victralux is the range of Bottero straight line grinders. The 5 models available within this range of machines allow working the edge with arrises and the possible dubbing system.
